**Project Status:**

Coal – Fired Boiler was commissioned in April-16 on schedule. This should bring Power & Fuel cost savings in future.

Capacity Expansion is going ahead as per schedule and Phase I is expected to be commissioned in April-17 as per schedule.

*Commenting on the results, Mr. Arvind Goenka MD said “due to weak global economic indicators, the business growth was not on expected lines. Top line was subdued due to lower selling price on account of reduced input cost. However, the demand for Insoluble Sulphur in Domestic market grew at a healthy rate. The Company reported the Revenue of Rs.275crs with EBITDA and PAT margin of 31.6% & 19.3% respectively”.*

*Economic signs point that 2016-17 might also be good for the domestic industry. Rising investments from Domestic and Foreign Tire companies in India is giving a sense that Demand is projected to remain strong in the future. Thus, demand for Insoluble Sulphur is also expected to grow going ahead. Global Growth should ride on globally unexploited geographies such as America, China etc. and natural demand growth.*

*OCCL is preparing itself to grab these opportunities and capitalize the same with its capacity expansion plans which will help to sustain the growth momentum in years to come”.*
